# **INGENIUM Cybersecurity Week**

**Call for Staff**

## What is the INGENIUM Cybersecurity Week?

The University of Oviedo, in collaboration with the Spanish National Cybersecurity Institute INCIBE is organising a Cybersecurity Week which will take place from the 16th to the 20th of June.

The Cybersecurity Week will have three main activities:

- A cybersecurity hackathon for students from INGENIUM partner universities. Each INGENIUM partner will be able to send at least 6 students to the hackathon, with all the expenses being covered directly by the university of Oviedo.
- An academic meeting “Education Incubator” focused on brainstorming potential educational collaborations in the field of cybersecurity between INGENIUM partner universities
- A sectorial meeting of companies from the cybersecurity domain. The companies will also be invited to engage in the hackathon and the educational incubator

The University of Oviedo is looking for staff members from INGENIUM partners working in the cybersecurity domain to collaborate on the organisation of the Cybersecurity Week and attend the event in June 2025.

Each INGENIUM partner is assigned a minimum of 2 staff members. One of these staff members will be more involved in the preparation of the hackathon, and the other in the academic and sectorial meetings.

They will have the following tasks:

### Cybersecurity Hackathon

- Supporting the preparation of the agenda
- Proposing speakers and sessions
- Delivering/facilitating sessions during the hackathon

### Academic and sectorial meeting

- Supporting the preparation of the agendas
- Making proposals for academic components based on their specific expertise and institutional priorities of their universities
- Proposing activities that allow for cooperation between academics and companies.

Staff members will have all their expenses related to the participation in the Hackathon covered directly by the University of Oviedo.

## Application Process

Interested staff members should apply for this opportunity through their INGENIUM Partner Coordinators, by sending an email including the attached application form to the respective email and [ingenium@uniovi.es](mailto:ingenium@uniovi.es).

Interested staff can send their applications to their IPCs by the **23rd of December**.
